COMPLETE COTTON CLEANER,

The Complete Cotton Cleaner, a New, Valuable and Moneymaking Machine to every Cotton producer or ginner,-thoroughly removes all Dust, Dirt, Sand and light TRASH from cotton before ginning, and improves the quality of the lint from one to four grades.

No gin house should be without one of these "cleaners". It is light, simple, and easily adjusted to either Horse or Steam power, occasioning little or no increased draft, is readily understood, simple in operation, not liable to get out of order, and will pay for it-

self in less than ten days work. Manufactured and sold by Allison Brothers, Memphis, Tenn. Send for Circulars and Price list ...

Gentlemen—I have, during the pest season, had in successful operation the "C. C. C. C. purchased of you. I am greatly pleased with it, and consider it an absolutely indispensable machine in every gin-house. All its claims have been fully sustained, and I think you have not, in the least, exaggerated its merits. It certainly takes all the dust and dirt out of cotton, leaving it in a beautiful condition for the work of the gins. Its most apparent benefit is, of course, upon the lower grades, but I believe it will very much enhance the quality of all cotton—the first as well as the last pickings. Yours, truly.
